-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 1-5 and 7 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

As per claims 1-3, the specification does not adequately describe the step of “selectively operating the sealed system to raise a temperature of the evaporator while the defrost heater is inactivated.” While the specification does show the controller being paused for a period of time 66 to allow for evaporation of refrigerant, there is no indication of any “selective operation” or of the temperature of the evaporator being raised by the operation of the system.

As per claims 4, 5, and 7, the specification does not adequately describe the step of “raising the temperature of the appliance while the defrost heater is inactivated.” Again, while the specification does show the controller being paused for a period of time 66 to allow for evaporation of refrigerant, there is no indication that this pause is used to raise the temperature of the appliance. On the contrary, the specification states that the pause is used for evaporation of the refrigerant (paragraph [0027], line 4), and so that cooling is not wasted (paragraph [0025], line 7). In other words, the temperature of the appliance is in fact lowered, not raised.

Due to the enablement issues described above, these claims have not been examined on the merits at this time.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 6 is rejected under 35 U.S.C. 102(b) as being anticipated by Szynal et al.

As per claim 6, Szynal et al. discloses energizing a defrost heater (step 112), de-energizing the heater (step 114), and pausing for a drip time 120 before allowing the compressor to run (i.e., before de-energizing relay K1 at step 122 so that routine returns to step 102 and compressor can be restarted by switch T1).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marc E. Norman whose telephone number is 703-305-2711. The examiner can normally be reached on Mon.-Fri., 8:00-5:30, with first Fridays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Denise Esquivel can be reached on 703-308-2597. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
